Corporate logos cannot be curved, manipulated or distorted in any way. Logos run flat and in the confines of the rectangular imprint area appropriate for the placement. If a logo is longer then it may extend further than the ends of the rectangle as long as it is still contained in the overall imprint area. Rectangles are there as a reference for lining up.

Please be mindful that any type smaller than 6 pt. may not print well. If your art contains letters smaller than this size, and the proof is approved, we are not responsible for poor imprint quality.
